

## Brief Summary from the April 15th 2009 Meeting

1) There was a very good discussion on the basics of Job Order Contracting, benefits and challenges.

2) Tina Borger suggested possibly having some type of JOC Training webinar that could include Procurement, Facilities, Contractors and Design Professionals. Vince Duobinis explained that NASFA (National Association of State Facility Administrators) had recently conducted a very successful webinar and he would provide the contact information to her.

3) Warner Alston asked if there was a benchmark that showed the FTE requirements that an owner would need to have to successfully manage a JOC program.

4) There were questions about possible sample RFPs that could be used by other agencies. Bill Kolster said he would get his together. Vince Duobinis said that Fairfax County's was on their web site. (possibly put together a data base of RFPs that could be utilized by members - Tina Borger interested as well for her membership).

5) Bill Kolster suggested July 15th, from 11:00 - 1:00 as the next quarterly meeting date. Everyone agreed. Bill further suggested that George Mason might be the location. Vince Duobinis suggested that we might want to look at other locations as well after the 7/15 meeting (northern or southeastern side of the Beltway) to encourage and equal out travel distance for those interested from Maryland and other parts of Northern Virginia. Bill also mentioned that other information will be forthcoming concerning attendee costs for future meals as CJE National covered today's meals and event location.

6) Vince Duobinis said that if anyone had any other topics for discussion at the next meeting to please e-mail him and he would put together the agenda (vduobinis@cce-inc.com).

7) The web site for the Center for Job Order Contracting Excellence:  
<http://www.jocexcellence.org/>

Attendees:
